5. Call for Applications: Libori Summer School 2018

(Center for the History of Women Philosophers and Scientists, Paderborn, Deadline: June 30, 2018)

In these parallel, intensive courses, featuring experts in the specific areas, we challenge the philosophical canon by showing how to incorporate the ideas of women philosophers and scientists via their texts and discuss new issues and topics in the field. Each day of the Libori Summer School will begin with a morning lecture that will be delivered to all participants. These lectures will introduce students to the topics being discussed across all the individual courses on offer. This will give attendees the opportunity to get an impression of each area of philosophical research being covered this year. It will also provide them with the occasion to hear from many of the world renowned speakers visiting the Center HWPS this summer.
